KÉRASTASE PARIS

Live the Kérastase Rituel at Edouard de Paris Salon
The highest level of personalized care that restores
balance to your hair and your life

Kérastase provides a wide variety of high performance In-Salon Treatments which includes “Le Rituel” (the ritual) - a perfect blend of advanced technology, expertise and personal care that begins with an opportunity to welcome your client personally.

An advanced hair observation where the hairdresser feel the texture and condition of the hair and performs an elasticity test to look for the breakage, shine and scalp condition. He/she, also, asks specific and open ended questions to better address client’s concerns, comments and expectations and selects the Kérastase Rituel adequate for your hair.

Once the evaluation process concludes, the treatment is applied followed by choreographed massages which are based on the physiological stimulation of the scalp muscled, blood circulation, lymphatic and nervous system. The result, an elevated salon experience.

The program continues at home with a complete 3 step regimen designed to maintain the results of the In Salon Treatments. Available at Edouard de Paris Salons or www.edouardparis.com.
